

AQUASPACE

MICROTECH BEAUTY EXPERIENCE

OUR SPECIALIZATION: WELLNESS THROUGH WATER.

More than 10 years of specific experience: working with a natural element like water, bringing it into contact with state-of-the-art technology, the most beautiful design, the most effective programmes and treatments. DVG's serious and continuous commitment to research as well as its broad knowledge about the world of beauty and wellness has permitted it to design and build true innovation creating an advanced form of wellness. This DVG philosophy is at the basis of Aquaspace: a new, extraordinary project, a DVG patent, where water becomes a multisensorial experience of health and beauty.

AQUASPACE: A GREAT SPA CONCENTRATED INTO LESS THAN 3M².

Aquaspace is a concentration of high technology. The most elegant design entices you to try the infinite number of programmes. Thanks to the molecular steam, a sense of profound wellbeing wraps around you heightening the effects of the treatments. In a very tiny space and easily put together, Aquaspace recreates the pleasure of a real SPA.

HOT AIR, COLD MIST AND STEAM BATH: WELLNESS INNOVATION.

Many treatments, curative and aesthetic, can be carried inside Aquaspace: it uses hot air, cold mist and molecular vapour. The steam bath, a millenary technique with numerous properties, helps to deeply cleanse the skin, the dermis and the subcutaneous tissue. Moreover, the thermal alternation between hot steam and cold mist created by Aquaspace carries out an effective vascular exercise that reactivates deep circulation, especially in the legs, and has an extraordinary invigorating action, while contributing to better breathing and relaxation of muscles and the nervous system. Aquaspace combines these curative properties to many other aesthetic benefits: ayurvedic, alpine, Mediterranean, thalassotherapy...

A person is shown from the back, suspended in a green hammock. They are surrounded by dynamic water splashes and bubbles against a light blue background. The overall aesthetic is clean, fresh, and refreshing.

RELAX ON THE AQUASPACE HAMMOCK AND DISCOVER ITS SECRET: MOLECULAR STEAM.

Everything in Aquaspace was designed to make you feel good. Its hammock is the first sensation of wellbeing you'll feel as it invites you to discover its secret: the molecular steam used in Aquaspace is a very dry steam which permits a range of temperatures between 40°C and 45°C. It doesn't create any problems for people and guarantees complete hygiene in that it eliminates every type of bacteria: the injection of steam into the tub is direct and therefore avoids the formation of condensation deposits. Moreover, molecular steam works in perfect harmony with any type of cosmetic product helping the active principles to penetrate thus heightening their effectiveness.

AYURVEDIC, ALPINE, MEDITERRANEAN
TREATMENTS. THALASSOTHERAPY.
AROMATHERAPY. MUSICOTHERAPY.
CHROMOTHERAPY. AN INFINITE
NUMBER OF PROGRAMMES, AN
INFINITE NUMBER OF FEELINGS
WITH THE COSMETIC PRODUCTS YOU
WANT AND ONLY ONE AQUASPACE.

Aquaspace allows you to carry out many types of treatments with hot air, molecular steam and single and combined nebulization. From a steam bath to a hay wrap, from an algae treatment to a mud bath, from a Ghassoul clay wrap to a black soap treatment... extraordinary multifunctionality and versatility together with the freedom to choose vapour treatments for legs, bust, shoulders and head, both simultaneously and independently. Moreover, in Aquaspace, the benefits of aromatherapy, musicotherapy and chromotherapy are extraordinarily strengthened: the essential oils reach the olfactory system faster and more effectively. The advanced system that diffuses the music means that the sound vibrations wrap around your body in a totally relaxing way. Pleasant baths of light complete the Aquaspace treatment that bring out the advantages of chromotherapy, very antique technique that recognizes the positive influence of colour on human beings.

2 EURO, 24 HOURS OF AQUASPACE
WELLBEING: EVEN SAVING IS ITS FORTE.

With a power of 220 volts and a maximum 3 kW consumption, Aquaspace optimizes costs, reduces energy expenses, obtains the most with the least.

EASY TO CLEAN, GUARANTEES ABSOLUTE
HYGIENE, MAKES ANY ENVIRONMENT
BEAUTIFUL, MAKES CLIENTS HAPPY AND IS
READY TO USE IN ONLY A FEW MINUTES:
IN AQUASPACE YOU CAN FEEL GOOD TOO.

Aquaspace makes every gesture easy, from installation to cleaning. You need only hot/cold water, a socket and a space that is less than 3m² to connect it. Complete with shower for rinsing both your client and the tub, Aquaspace is designed without any angles and built with materials like stainless steel and Kevlar making it easy to clean. The shackles are easily dismantled and washable. The hammock is hooked onto the tub with an easy and quick system making cleaning even quicker.

EXCLUSIVE PATENT,
ABSOLUTE QUALITY.

AQUASPACE: INTELLIGENT,
DEMANDING, SIMPLY BEAUTIFUL.

The simple and elegant design entices you to try the Aquaspace experience. The mirror-polished 316 stainless steel shell and the Kevlar and glass fibre hammock ensure maximum hygiene. The intuitive touch-screen display means that you can choose the treatments easily and quickly and they can be memorized for automatic cycles.

Aquaspace is an exclusive DVG patent. It is the fruit of research, innovative ability and the experience of people specialized in wellness that comes from water. It is the most advanced answer and, at the same time, it is easy to use by those who want the advantages, the technology and a quality guarantee of a SPA. All concentrated in less than 3m².
